

Government Shutdown Effects on SNAP (Food Assistance)

Due to the federal government shutdown, Ohio will be issuing February Food Assistance benefits to participants currently in receipt of SNAP **on or before January 20**.

Participants will **NOT** receive their benefits on their February load date and should remember their benefits loaded in January will need to last through February.

We do not have any information on issuances for March, but we will keep you informed as soon as we do. Thank you for your patience and understanding.
